

EAST OF ENGLAND CRICKET DEVELOPMENT COMPETITION PLAYING CONDITIONS 2014

1. Playing Conditions

These Playing Conditions are intended as a guide for Umpires, Captains, Scorers and Team Organisers and should form the basis under which all matches take place. However, it is accepted that on occasion individual match circumstances (venue, weather, etc.) may make it necessary for a "common sense" interpretation of these Playing Conditions to be adopted in order complete a competitive game of cricket.

1.1 Powerplays

Provision has been made for the inclusion of Powerplays as used by MCCA in Minor Counties Knockout Trophy (see appendix attached).

2. Duration

The matches will consist of one innings per side, each innings being limited to maximum of 50 overs. One day will be allocated.

3. Hours of Play and Intervals

3.1 The scheduled hours of play will be 11.00am to 6.45pm but may be altered subject to the agreement of both teams.

3.2 There will normally be two sessions of play of 3 hours 30 minutes each, separated by an interval of 45 minutes from 2.30pm to 3.15pm. If the innings of the team batting first is completed prior to the scheduled time for the interval then the interval may, if considered practicable by the umpires in consultation with the Ground Authority, take place immediately and the innings of the team batting second will commence correspondingly earlier. Otherwise the interval shall take place at the normal time as calculated by the umpires.

3.3 Where the innings of the side batting first is delayed or interrupted, the Umpires will reduce the length of the interval. In the event of time being lost up to and including 60 minutes in aggregate, the length of the interval shall be reduced from 45 to 30 minutes. In the event of more than 60 minutes being lost in aggregate, the duration of the interval shall be agreed mutually by the Umpires and both Captains subject to it being of not more than 35 minutes duration nor less than 10 minutes duration. In the event of disagreement, the interval shall be of 25 minutes duration. In circumstances where the side bowling first has not completed the allotted number of overs by the scheduled or re-scheduled cessation time for the first innings, the umpires shall reduce the length of the interval by the amount of time that the first innings overran. The minimum time for the interval will be 10 minutes.

3.4 Two drinks intervals per innings are permitted, but no time allowance shall be provided for them.

4. Length of Innings

In uninterrupted matches (ie matches which are neither delayed nor interrupted):

4.1 Each team shall bat for 50 overs unless all out earlier.

4.2 If the team fielding first fails to bowl the required number of overs by the scheduled time for the cessation of the first innings, play shall continue until the required number of overs has been bowled and Playing Condition 15 will apply.

4.3 If the team batting first is dismissed in less than 50 overs, the team batting second shall be entitled to bat for 50 overs.

4.4 If the team fielding second fails to bowl 50 overs by the scheduled time for the cessation of the second innings (normally 6.45pm), the hours of play shall, subject to conditions of ground, weather and light, be extended until the required number of overs has been bowled or a result has been achieved and Playing Condition 15 will apply.

5 Length of Innings in Delayed or Interrupted Matches

5.1 General

- (a)** The timing and duration of all suspensions of play (including all intervals) or delays on any day will be taken into account when calculating the length of time available for either innings.
- (b)** The object shall always be to rearrange the number of overs so that, if possible, both teams have the opportunity of batting for the same number of overs
- (c)** Except as provided for in 5.3 below the calculation of the number of overs to be bowled shall be based on a rate of one over for every full 4.2 minutes in the total time available for play up to 7.45pm. A rescheduled cessation time should be re-calculated for both innings. A minimum of 10 overs must be bowled to the team batting second (subject to it not being all out earlier) in order to constitute a match. The re-calculated number of overs will be the minimum number that ensures that the re-scheduled cessation time is no earlier than the original cessation time.
- (d)** If the team fielding second fails to bowl the required number of overs by the scheduled cessation time, the hours of play shall, subject to conditions of ground, weather and light, be extended until the overs have been bowled or a result has been achieved, and Playing Condition 15 will apply.
- (e)** The team batting second shall not bat for a greater number of overs than the team batting first, unless the latter has been all out in less than the agreed number of overs.

5.2 Delay or interruption to the Innings of the Team Batting First

- (a)** If the number of overs of the team batting first is reduced, a fixed time will be specified for the completion of its innings, as calculated by applying the provisions of 5.1 (a), 5.1 (b) and 5.1 (c) above. In the event of its innings being completed prior to the scheduled time, the interval shall take place immediately and the innings of the team batting second will commence correspondingly earlier.
- (b)** The object shall always be to rearrange the number of overs so that, if possible, both teams have the opportunity of batting for the same number of overs

5.3 Delay or interruption to the Innings of the Team Batting Second

If there is a delay or interruption to the innings of the team batting second, the overs shall be reduced at a rate of one over for every full 4.2 minutes lost, except that when the innings of the team batting first has been completed prior to the scheduled or re-scheduled time for the interval between innings, the reduction of overs will not commence until, in the case of a delay, an amount of time equivalent to that which the first innings finished early has elapsed, or in the case of an interruption, an amount of time equivalent to that by which the second innings started early has elapsed. A re-scheduled cessation time should be re-calculated for the second innings. The re-calculated number of overs will be the minimum number that ensures that the rescheduled cessation time is no earlier than the original cessation time.

Note: After any hold up in play, the Umpires will notify the Scorers of the number of overs lost. The Umpires will both satisfy themselves as to the correctness of all such calculations before allowing play to take place. The Umpires will notify the Captains, Scorers and all others concerned of such decisions.

6. The Result

6.1 When there is no interruption after play has commenced and when both sides have had the opportunity of batting for the same agreed number of overs, the team scoring the higher number of runs shall be the winner. In the event of a match ending with level scores, the following shall apply:

6.2 The team losing the lesser number of wickets shall be the winner.

6.3 If the result cannot be decided by 6.1 or 6.2, the winner shall be the team with the higher score after 15 overs, or if still equal after 14 overs, or if still equal after 13 overs etc.

6.4 If, due to suspension of play after the start of the match, the number of overs in the innings of either team has to be revised to a lesser number than that originally allotted (minimum 10 overs), then a revised target score should be set for the number of overs which the team batting second will have the opportunity of facing. This will be calculated on the basis of average run rate.

6.5 If a match is abandoned before it has been played to a conclusion and before the team batting second has received its allotted number of overs (providing that it has received not less than 10 overs), the result shall be decided by average run rate

6.6 For the purposes of 6.4 and 6.5 if either team is bowled out in less than the number of overs scheduled for their innings (whether 50 overs or a revised figure) then the average run rate of such team is calculated on the basis of the full number of such scheduled overs.

6.7 If no play takes place, or if the team batting second does not receive at least 10 overs, then the match will be regarded as a No Result.

7 Points Scoring

7.1 The side winning the match to score 2 points. In a No Result match each side to score 1 point.

7.2 In the event of two or more sides having an equal number of points, their positions in the table shall be based on the higher net run-rate achieved in all league matches in which there is a result (No Result matches being ignored). A team's net run-rate is its own overall run-rate in all the completed league matches which it has played (ie. total runs scored x 100 divided by legitimate

balls received) minus the combined cumulative run-rate of its opponents in those same matches (calculated on the same basis). In the event of a side being all out in less than its full quota of overs, the calculation of its run rate shall be based on the full quota of overs to which it would have been entitled and not on the number of overs in which it was dismissed.

8. Restrictions on the Placement of Fieldsmen:

8.1 At the instant of delivery there shall not be more than five fieldsmen on the leg side.

8.2 For the first 15 overs only of each innings, only two fieldsmen are permitted to be outside an area bounded by two semi-circles centred on each middle stump, (each with a radius of 30 yards) and joined by a parallel line on each side of the pitch (the fielding circle). The fielding circle should be marked by painted white "dots" at five yard intervals, each "dot" to be covered by a white plastic or rubber (but not metal) disc measuring seven inches in diameter.

8.3 For the remaining overs of each innings only five fieldsmen are permitted to be outside the fielding circle at the instant of delivery.

8.4 Two inner circles shall be drawn on the field of play. The circles shall have as their centres the centre point of the popping crease at either end of the pitch. The radius of each of the circles is 15 yards (13.72 metres). The field restriction area should be marked by coloured "dots". The segment of the circles reserved for the slip positions shall not be demarcated. For the first 15 overs only of each innings there must be a minimum of two stationary fieldsmen (excluding the Wicket-keeper) within 15 yards of the striker at the instant of delivery. When a fast bowler is bowling the two stationary fieldsmen may be permitted to stand deeper than 15 yards (in the un-demarcated area) provided only that they are standing in slip, leg slip and gully positions.

8.5 In circumstances where the number of overs for the team batting first is reduced, the number of overs in regard to the restrictions in 8.2 and 8.4 above shall be reduced proportionately in a ratio of 15:50 (30%) in accordance with the table below. Fractions are to be ignored in all calculations re the number of overs. (If on resumption the number of overs for fielding restrictions has already been exceeded this should take effect immediately).

TOTAL OVERS IN INNINGS	NO. OF OVERS WHERE 8.2 & 8.4 ABOVE WILL APPLY
10-13	3
14-16	4
17-19	5
20-23	6
24-26	7
27-29	8
30-33	9
34-36	10
37-39	11
40-43	12
44-46	13
47-49	14

Where the number of overs for the team batting second is reduced, the aim will be to maintain the restrictions in 8.2 and 8.4 for the same proportion of the second innings that they were maintained for the first innings (fractions to be ignored).

8.6 In the event of an infringement of any of the above fielding restrictions, the striker's end Umpire shall call and signal "No Ball".

9. Number of Overs Per Bowler

No bowler may bowl more than ten overs. However, in a delayed start or interrupted match, where the overs are reduced for both sides or for the side bowling second, no bowler may bowl more than one-fifth of the total overs allowed (unless such a number has been exceeded before the interruption), except that where the total overs are not divisible by five, an additional over shall be allowed to the minimum number of bowlers necessary to make up the balance —e.g. after 16 overs, rain interrupts play and the innings is reduced to 32 overs. Both opening bowlers have bowled 8 overs. Two bowlers can bowl 7 overs and three bowlers can bowl 6. Bowlers 1 and 2 have already exceeded this limit. They count as the two bowlers who were allowed the extra over (7 as opposed to 6) and so any other bowlers are limited to 6 overs. When an interruption occurs mid-over and on resumption the bowler has exceeded the new maximum allocation, he will be allowed to finish the uncompleted over.

In the event of a bowler breaking down and being unable to complete an over, the remaining balls will be bowled by another bowler. Such part of an over will count as a full over only in so far as each bowler's limit is concerned. The number of overs bowled by each individual bowler shall be indicated on the scoreboard from the commencement of an innings.

10. Declarations

Law 14 will not apply in this competition. The Captain of the batting side may not declare his innings closed at any time during the course of a match.

11. Law 24.12 - No Ball — Penalty

Law 24.12 will apply except that the penalty for a "No Ball" will be 2 runs.

12. Free Hit after a Foot Fault No Ball

In addition to 9 above, the delivery following a no ball called for a foot fault (Law 24.5) shall be a free hit for whichever batsman is facing it. If the delivery for the free hit is not a legitimate delivery (any kind of no ball or a wide ball) then the next delivery will become a free hit for whichever batsman is facing it. For any free hit, the striker can be dismissed only under the circumstances that apply for a no ball, even if the delivery for the free hit is called wide ball. Field changes are permitted for free hit deliveries.

13. Law 25 -Wide Ball — Penalty

In addition to Law 25 the following will apply. Umpires are instructed to apply a very strict and consistent interpretation in regard to this Law in order to prevent negative bowling wide of the wicket. A penalty of one run shall be scored. This penalty shall stand in addition to any other runs which are scored or awarded.

14. Short Pitch Bowling

A bowler shall be limited to only one fast, short pitched ball per over.

15. Over Rate Penalties

All sides are expected to be in position to bowl the first ball of the last of their 50 overs within 3 hrs. 30 minutes playing time. In the event of them failing to do so, the full quota of overs will be completed, and the batting side will be credited with 6 runs for every whole over that has not been bowled. This will apply to both innings of the match. If the side batting second is credited with runs in this way and this consequently takes their score past that of the side batting first then the match shall be deemed to be won by the side batting second. All penalties in this regard will be imposed immediately the ball first becomes dead after the scheduled or re-scheduled cessation time for the innings.

If the innings is terminated before the scheduled or re-scheduled cut off time no over- rate penalty shall apply. If the innings is interrupted, the over rate penalty will apply based on the re-scheduled cessation time for that innings.

The Umpires shall inform the fielding team Captain when taking the field for the first time and on every subsequent occasion if play is interrupted by the weather, the scheduled time for that innings. The Umpire at the bowler's end will inform the fielding Captain, the batsman and his fellow Umpire of any time allowances as and when they arise (this matter will not be subject to retrospective negotiation). In addition, in all reduced overs matches, the fielding team will be given one over leeway.

Over-rate penalties apply only to innings of 15 overs or more duration.

This is the only penalty for a slow over-rate.

16. Law 41 — The Fielder

The following shall apply in addition to Law 41.1: The exchanging of protective equipment between members of the fielding side on the field shall only be permitted provided that the umpires do not consider that it constitutes a waste of playing time.
